## Title for Taiwan cannot contain non-Chinese Traditional characters

- **Article Type:** General
  - **Product:** SFX
  - **Product Version:** 3
- 

### Description:

When the country chosen is 'Taiwan' In the Configuration of the AZ, Chinese titles in the A-Z List will be sorted by Stroke sequence.

An ISSN that starts with number (i.e. Title: 21?? ISSN:1005-2984) creates an error in the AZ log –

20081209104719:AZLIST\_VER3::IndexBuilder::\_load\_active\_titles:Error loading title for object: 111076342825844 (profile: default, language=chi): Failed to insert AZ\_TITLE recordIOL::AZ\_Ver3::insert\_az\_title: Missing sort title at /exlibris/sfx\_ver/sfx\_version\_3/keren/lib/AZLIST\_VER3/[IndexBuilder.pm](#) line 703.

Title for Taiwan cannot contain non-Chinese Traditional characters (not even numbers), otherwise it cannot be converted into stroke sequence.
