
How to remove "Cover image not available" from Brief View?

- **Article Type:** General
 - **Product:** Primo
 - **Product Version:** 2
-

Description:

How do you remove the "Cover image not available" from the Brief View?

Resolution:

You can exchange the existing 'no-cover' picture with an "empty" GIF file (see attached).

The file should be placed in `/exlibris/primo/p2_1/ng/primo/home/system/thirdparty/opensever/server/search/deploy/primo_library-app.ear/primo_library-libweb.war/images/no_cover.gif`

Be sure to backup the original no-cover.gif to something like "no_cover_orig.gif".

Be sure to also empty your browser cash and cookies to see the change.

Additional Information

remove Cover image not available
