## Series heading has no authority link (no "auth. info")

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 16.02
- 

### Description:

The authority link works for personal names, uniform titles, corporate names, conference names, but not the Series.

When searching in ABC01 by browse - searching by the author Martin, Ann M the title "babysitters club" should have the "auth info" there but it does not.

What is are missing link?

### Resolution:

The bib heading "Babysitters club":

```
02 z01_rec_key \  
03 acc_code .....SRE  
03 alpha .....L  
03 filing_text .....BABYSITTERS CLUB

02 z01_acc_sequence_see ....000000000  
02 z01_number_of_doc .....00000
```

is not connected to any authority record because the authority record for the series does not match:
