-

Description:

Is it possible to print a list of a person's Loans?

The individual in mind has 197 loans and I can't figure out how to print this.

Resolution:

You can get this information by running the p_cir_04 Loan Report (Services --> Reports --> Loan Report).

This produces the report for all patrons with a particular borrower status. If you want just this one patron's loans, you could delete the lines for the other patrons or cut/paste the section with his/her lines into a new file.
