

error message from dataloader appears in the txt.ok.err file

- **Article Type:** General
 - **Product:** SFX
 - **Product Version:** 4
-

Description:

When running DataLoader with ISSN as the key, an error message is received in the txt.ok.err file generated after the load:

```
ReportTranslate1086-3222cannot be translated on line 1 (no ISSN found)
ReportUpdated1086-3222Updated portfolio with
id=1000000001947179EBSCOHOST_ACADEMIC_SEARCH_COMPLETEgetFullTxt
ReportTotal0Added 0 portfolios
ReportTotal1Updated 1 portfolios
```

However, the threshold is updated correctly in the SFX Admin Center, so no error should be received

Resolution:

Additional Information
