

config/connection_user.config_ IP address block message is very unfriendly

- **Article Type:** General
 - **Product:** SFX
 - **Product Version:** 4
-

Description:

When an IP is set to be blocked in the config/connection_user.config_ file, an unfriendly message appears when producing an SFX menu:

Software error:

ModPerl::Util::exit: (120000) exit was called at /exlibris/sfx_ver/sfx4_1/sfxlcl41/lib/SFXMenu/[Engine.pm](#) line 134

The request behavior is to see a friendlier message

Resolution:

Additional Information

block IP config/connection_user.config_
