

How to save a report to the server file system?

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 2
-

Description:

Cognos 8.2 has an option to save each file that is saved in the Content Store also to a file system location on the server. We would like to set the path to the directory to /exlibris/tmp

Resolution:

See attached word doc

Additional Information

ARC save report file system Cognos 8.2
