

## Sorting by ISBNs

- **Article Type:** General
  - **Product:** Verde
  - **Product Version:** 2
- 

### Description:

Some Verde constituents have two ISBNs instead of ISBN and e-ISBN (see, for example workexpression CEP\_1216213911343\_7344).

It is a result of old CKB Update bug when e-ISBN was created as ISBN. The bug was fixed but data was not corrected retroactive.

Only one of ISBNs is displayed in package list. In problematic cases sort is performed by ISBN that is not displayed. See, for example, package list of package CEP\_1216213395933\_5059:

TITLE Ship Construction has two ISBNs: 0-7506-8070-9 and 0-08-046823-3.

The first one (0-7506-8070-9) is the one that appears in package list. But sort is performed by second ISBN (0-08-046823-3).

Therefore title stays after

0-08-045684-7

and before

0-240-51908-6 .
