

Local patron information is not created for new patrons

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Description:

When I select a patron profile to populate the field in the fast patron registration form, we do not get the local patron information to fill in properly.

Resolution:

The `.\CIRC\TAB\Circ.ini` file on the pc had

```
FilterProfileByLibrary=N
```

Changing this to:

```
FilterProfileByLibrary=Y
```

and restarting the Circ client corrected the problem.

The "Save Defaults" may also be a factor. They are stored in the `.\CIRC\TAB\patrndef.dmp` file. You could add the values you want saved and then do "Save Defaults".
