
Can info from patron.purge.historicalfines be restored?

- **Article Type:** Q&A
 - **Product:** Voyager
 - **Product Version:** 8.2.0
-

Question

Is there any way to restore the information from the patron.purge.historicalfines log file back into the Voyager system?

Answer

No. The information in the patron.purge.historicalfines file cannot be re-loaded into Voyager. When the circjob runs, the data in the fine_fee table is deleted for each patron that is being deleted from the system.
