Description:

Where can I find the documentation about SFX Debug Message?

Resolution:

You can find the documentation in:

The Web OPAC section of the System Librarian's Guide > Chapter "Adding an SFX Link Button". The correct information is below:

"The following message, which pops up before the SFX window appears, presents the OpenURL link: [image]

If you do not want this message to appear, change the following variable in sfx-record-ver-0.1 and/or sfx-record-ver-1.0, (in the www_f_lng directory)

```
from var debug =1
```

```
to
```

```
var debug =0."
```

Additional Information

sfx
