

cir-05 retrieves too few records

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

Problem #1

Description:More patron records exist in the database than are returned by p-cir-05

Actual Results:Fewer patrons show on the p-cir-05 report than exist in the database

Expected Results:The same number of patrons should show on the p-cir-05 report as exist in the database

Problem #2

Description:Selecting a date beyond 12/31/2099 results in an invalid date error

Actual Results:A date selected using the calendar icon results in an invalid date error message

Expected Results:A date selected using the calendar icon should be valid

Resolution:

Fix in v20. rc 2342
