

## Deleting Empty, Unlinked Headings

- **Article Type:** Q&A
  - **Product:** Aleph
  - **Product Version:** 16.02
- 

### Question

When doing a browse search in the GUI there are some empty headings from older, meanwhile deleted index entries. How can we delete them?

---

### Answer

You can delete these records by running "Delete Unlinked Headings (manage-15)" for Author, Title, Subject from the Cataloging Module Services menu.

You may put this service to your job list in order to run it in regular intervals.

**Category:** Cataloging (500)

**Subject:** Services
