

## Does pre-packaged report summarizing vendor information exist?

- **Product:** Voyager
  - **Product Version:** 7.2.5
- 

### Question

We need to export vendor information, and have not been able to find anything in the standard reports. Does a report or query like this exist?

### Answer

Currently, there is not a pre-packaged report that summarizes vendor record information.

Support can indicate which tables should be queried, but does not provide assistance in writing or troubleshooting custom queries. The Voyager-L listserv is an excellent resource for custom query assistance.
