

Is Classic WebVoyage supported in Voyager 9 and 10?

- **Article Type:** Q&A
 - **Product:** Voyager
 - **Product Version:** 9
-

Question

Is Classic WebVoyage still supported in Voyager 9.x and 10.x?

Answer

Classic WebVoyage is supported as follows:

- Classic WebVoyage is available for all supported versions of Voyager.
 - New features are added to Tomcat WebVoyage only. New features have not been added to Classic since the introduction of the Tomcat WebVoyage interface in Voyager 7.0.1 (ca. 2008)
 - Defects impacting Classic WebVoyage will be repaired if they also impact the Tomcat WebVoyage.
 - Defects that impact Classic WebVoyage but do not impact Tomcat are considered resolved and will not be fixed.
