Description:

We see CALL X SERVICE messages like the following in the p_ill_23 log. Are these errors? If so, what needs to be done to resolve them?

```
==== CALL X SERVICE =====  
op..... ill-in-loc  
server..... catalog.linccweb.org:80  
library..... ABC50  
username.....  
session-id.... IHVRKKHSIXNKHG2DF33GA9GR1YJDQFEX797I8PBTYR2AVNI363  
comm error.... 0000  
service err...
```

Resolution:

This is just informational. Since the error codes are 0000 and blank, there is no indication of any problem.
