## Link to items from external search engine

- **Article Type:** Q&A
- **Product:** Aleph
- **Product Version:** 16.02

---

### Question

Is it possible to display item information from an external search engine?

---

### Answer

For this purpose the Aleph X-Services described at the Ex Libris (EL Commons) portal can be used:

<http://www.exlibrisgroup.org/display/AlephOI/Introduction+to+Aleph+X-Services>

Take a note that not all services described here might be available in your Aleph 16.02 version, but only in higher releases. The current Aleph version is 21.1, released January 2012.

---

### Additional Information

Note 1) To use the services an X-Server license is required

Please contact your sales representative to obtain more details regarding costs and implementation.

Note 2) not all services described at EL Commons might be available in Aleph 16.02 version. The description relates to Aleph 18 and higher.
