
View Titles"/"Brief Records" doesn't display for Mozart

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

The system fails to respond when one clicks on "View Titles" for the "50+" Mozart, Wolfgang heading.

Resolution:

The "View Titles" is the same as the "Brief Records" in the USM01 catalog.

The table being read to produce this display is the z0101. I find that, though it takes as much as 30 seconds the first time, this 50+ Mozart ... *does* eventually give results -- 5,548 of them. That is why it is taking so long.

Subsequent displays of the 50+ Mozart ... are much faster.
