

## Server does not support client version 'SER1.0'

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 15.5
- 

### Description:

We see the following error in the pc\_server log:

Server does not support client version 'SER1.0'

We are trying to get z39\_server to search a record.

What should we do?

### Resolution:

The following line was commented out in \$alephe\_tab/tab\_version:.

```
SER1.0 ALEPH Y 0.
```

Adding this line back to the table corrected the problem

---

## Additional Information

z39, tab\_version, SER1.0
