## Duplications are allowed in the "Instances" configuration of the upgrade

- **Article Type:** General
  - **Product:** SFX
  - **Product Version:** 4
- 

### Description:

The first step in the upgrade allows inserting an instance name more than once, which causes problems in the process. The requested behavior would be to have the upgrade kit make sure that there are no duplications in the "Instances" section of the upgrade configuration to prevent future problems.

This issue has been brought to the attention of our development team and will be further investigated.

### Resolution:

---

## Additional Information

Duplications upgrade kit Instances
