## Oracle indexes not being created by util A/17/2

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 15.5
- 

### Description:

When we try to create the Oracle indexes for a certain table (such as Z00R), nothing happens. (There is no error; the screen shows only:

```
ABC60 index z00r
l_op == index
Enter to continue )
```

The ./abc50/scratch/create\_ora\_tables also has no error, but it also has no "create\_index" lines -- which it should.

### Resolution:

This can happen when the file list has no "IND" lines for the table. In this case the ./abc60 file\_list had this:

```
TAB z00r_id 20M 1M TS_CFU_MEDIUMX
TAB z00r_id1 20M 1M TS_CFU_MEDIUMX
```

when it should have had:

```
IND z00r_id 20M 1M TS_CFU_MEDIUMX
IND z00r_id1 20M 1M TS_CFU_MEDIUMX
```

---

## Additional Information

Oracle indexes
