
BOR-REC-REGISTRATION-DATE Mandatory?

- **Article Type:** General
- **Product:** Aleph
- **Product Version:** 18.01

Description:

The ALEPH V18.01 "How to Use the Patron Loader Interface - PLIF (file-20)" documentation lists "BOR-REC-REGISTRATION-DATE" as a Mandatory field. However, the training documentation doesn't mention it; and both upgraded and new patrons have that field populated as 00/00/0000 with no error.

Please clarify if this field is in fact mandatory.

Resolution:

The "How to Use the Patron Loader Interface - PLIF (file-20)" is incorrect in showing Z305-OPEN-DATE as the field which BOR-REC-REGISTRATION-DATE populates.

It should be "Z305-REGISTRATION-DATE".

Z305-REGISTRATION-DATE is **not** a mandatory field.

The document will be corrected.
