
OCLC Connexion: "Unable to open the TCP/IP connection. Host has refused..."

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

When we try to export from OCLC Connexion to Aleph, we receive the message "Unable to open the TCP/IP connection. The host has refused the connection."

I have restarted the Z39 Gate service to no avail.

Resolution:

The Z39 Gate is not connected to the OCLC server. You need to do this to start the oclc_server:

util w/3

7. Other Server , and then:

3. OCLC Server
