
How to test SLNP server (German customers only)

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Description:

Please find attached a document (German language) that describes how to test SLNP-communication with Alephs SLNP-server. This originally was an internal documentation but can be used by customers for analysing purposes. It is valid for Aleph 18 and up. Please note that the document contains some sample communication. For additional information on SLNP-protocol and more examples, you may contact your relevant central ILL system.
