
Searching with CTRL f3 from ABC01 authorities in ABC10

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 16.02
-

Description:

When entering a record in ABC01 which has this entry: N.C.I. in the 1## field, and pointing CTRL F3 to see or copy the source from the authority list we get ???

Resolution:

The problem with question marks in GUI after "CTRL F3" procedure is connected to the same heading entries which exists in ABC10 library.

The entry NCI and N.C.I. are the same for the system.

Therefore, we suggest you add another subfield to the ABC10 record in order to make a difference between these entries.

Additional Information

CTRL F3, question marks,
