Question

Can I undo or reverse a Bursar transfer?

Answer

No, a Bursar job cannot be reversed. However, the output from the Bursar job is stored in the `sif.burs.yyyymmdd.hhmm` file, which gets placed in the `/m1/voyager/xxxxdb/rpt` directory. This file can be reviewed, and fines/fees can be re-added to patrons' accounts manually via the Circulation client, if necessary.
