

Today's date in generic fix routine

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Description:

Can we use variables like the job_list's %DATE (today's date) in a generic fix routine, to insert today's date into a tag?

Resolution:

An "ADD-CURRENT-DATE" routine was added in v20 rep_change 3162. This is described in KB 31195.
