

## Borrowing request missing title

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 19.01
- 

### Description:

Borrowing request created via search tab, title does not display in upper pane.

### Resolution:

Step 1002 in the v.18 to v.19 upgrade did not complete successfully.

Please see the logs in `/exlibris/aleph/upgrade_express_1801_1901/logs/orig`

The problem is that the Z13 and Z13U table definitions change between the versions so you have to re-run step 1002.
