## Could not write new budget info."; ORA-02289: sequence does not exist

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 18.01
- 

### Description:

When we add budget KBTEST1-2006 in Encumber of bib and adm 4857114, order 4857114-1, In the GUI, we get: remote service error: c0528 enc-a 35: "Could not write new budget info "

and, in the pc\_server log:

```
SERVICE : C0528  
MODULE : Acquisition Services  
DESCRIPTION: No Description Available  
ACTION : ENC-A  
PROGRAM : pc_acq_c0528  
Oracle error: io_sequence_next  
ORA-02289: sequence does not exist
```

```
Oracle error: io_z601_write  
ORA-00001: unique constraint (CUN50.Z601_ID) violated
```

A different site which was getting the "Could not write new budget info" saw the following in the pc\_server log:

```
Oracle error: io_z601_write  
ORA-01654: unable to extend index ABC50.Z601_ID2 by 512 in tablespace
```

### Resolution:

The solution depends on the error you see in the pc\_server log.

For "sequence does not exist", see KB 5149.

For "unable to extend ... " error, see KB's 3985 and 5854.
