

Changing sublibrary name

- **Article Type:** Q&A
 - **Product:** Aleph
 - **Product Version:** 20
-

Question

In changing the name of the sublibrary (in column 5 of `./alephe/tab/tab_sub_library.lng`), are there any other consequences that need to be addressed?

Answer

No. A sublibrary name change will cause no problem whatsoever; it is used for display purposes only and is not stored in any records.
