
set_result_set_limit Setting for X-Server

- **Article Type:** General
- **Product:** Aleph
- **Product Version:** 16.02

Description:

Does the set_result_set_limit setting for X-Server come from www_server.conf, pc_server_defaults, or elsewhere?

Resolution:

The X-Server limit is taken from the www_server.conf.

X-Server is considered a part of the www server.
