
ORA-00603: ORACLE server session terminated by fatal error

- **Product:** Aleph
 - **Product Version:** 17.01
-

Problem Symptoms

- p_manage_32 job fails in building the z0102 Oracle indexes:

```
ERROR at line 1:  
ORA-00603: ORACLE server session terminated by fatal error
```

- util a/17/2 has the same error for the z0102_id1 index.

Cause

No space left on device.

Resolution

Resolve No Space Condition.

Additional Information

The Oracle `./bdump/alert_aleph17.log` file (viewable in util o/3/1) had the following error:

```
Errors in file /exlibris/app/oracle/admin/aleph17/udump/aleph17_ora_23673.trc:  
ORA-01114: IO error writing block to file 204 (block # 209398)  
ORA-27063: skgfospo: number of bytes read/written is incorrect  
SVR4 Error: 28: No space left on device
```
