Description:

We are having trouble changing a pattern for a serials. Vol. 1-14 had the pattern of vol. + year. Beginning with volume 15, the year is omitted. We deleted the first 853X and created a new 853/853X pattern to begin with vol. 15. We received vol. 15, but the summary holdings statement reads v.15-14. I think it's because of the sort where blank for year (vol. 15) comes before a real year (vols. 1-14), but I don't know what I need to do to fix it.

Resolution:

Instea of deleting the original pattern, you should create a second 853/853X combination for the new pattern.

For example:

```
853 L $$av$$81$$i(year)$$wa
```

```
853X L $$9001$$81$$a1$$i1992$$319920301
```

You need to generate the holdings summary for this run first.

Then create the new pattern:

```
853 L $$av.$$wa$$82
```

```
853X L $$82$$91$$a15$$320060301
```

When you create the following S63 field:

```
S63 L $$a15$$t1
```

the holdings summary will be generated for the new pattern.

This gave me the following holdings summaries:

```
86340 L $$81.1$$a1-14$$i1992-2005$$t1$$9Y
```

```
86340 L $$82.1$$a15$$t1$$9Y
```
