
Translating Search Request Messages

- **Article Type:** General
 - **Product:** MetaLib
 - **Product Version:** 3
-

Description:

In the message "Search for ... in ... found ... results" the part between "for" and "in" (example: "Title=aanslag AND author=mulisch") is not translated, because the message is dynamically generated by a Metalib. Can you please make translation of this message possible?

Resolution:

It is possible to change the phrase (Title / Author / Any word / etc.)

```
>>dlib ins01  
>>dt  
>>vi tab00.Ing
```

Change column #11 in the tab00.Ing file:

```
! 2 3 4 5 6 7 8 9 10 11  
!-!!!!-!!!!-!-!!-!!-!!-!!!!-!!!!-!!!!!!!!!!!!!!!!!!!!
```

```
H TIT ACC 01 00 0000 TIT Titles  
H AUT ACC 01 00 0000 AUT Authors  
H SUB ACC 01 00 0000 SUB Subjects
```

```
H WRD W-001 00 0001 WRD Any word  
H WTI W-004 00 0001 WTI Title  
H WAU W-003 00 0001 WAU Author  
H WSU W-002 00 0001 WSU Subject  
H WYR W-005 00 0001 WYR Year  
H OPT W-006 00 0001 OPT Any word
```

2.Regarding the : "AND" / "OR" / "NOT" phrases , currently this cannot be translated. The translation is possible in MetaLib Version 4.

Additional Information

UI, translation
