

It is not possible to register more than 999 arrivals

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

It is not possible to register more than 999 arrivals for an order (due to length of Z78-LINE-NUMBER = 3 digits). But some series have many many volumes (e.g. Lecture notes in computer science) and it should be possible to register all of them to the standing order in ALEPH.

For the moment, we suggested to create a new order.

Resolution:

Fixing the problem raised in this SI will require a serious change to the product which can not be made in an Aleph version that is in general release. Ex Libris will prioritize development for future product versions.

Additional Information

Z78-LINE-NUMBER
