
Change to maximum number of loans (in tab16) not taking effect

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

We have made the following changes to our tab16:

```
ABU16 01 ## 11 + 00000090 04 A 2359 0000 00075 100 005 D + 00000014 A 2400 007 014 02 D270 15.0000000 000 2
ABU16 99 ## 11 + 00000000 00 A 0000 0000 00000 100 005 000 2
```

I have followed the process outlined in a KB article to have these changes take effect immediately by dropping the z301 in abc50.

Patron 106697478 is a graduate student (status 11) and has 64 items. I'm trying to check out an item (barcode # 0114200178282, item status 01) to him, and I receive the following error:

Total limit reached - 058/050.

Total limit reached (ADM) - 058/050.

Resolution:

The z301 relates only to due dates. Non-due-date changes to tab16 are **not** stored in the z301. They are read from tab16 and require restart of the pc_server.

Please restart the pc_server.
