 - **Product Version:** 18.01
-

Description:

Is it possible to change the default node on a Navigational tree in the left pane of the Acquisitionis client. Specifically can we change the default node in the Administration tab tree to be Vendor, rather than Budget?.

Resolution:

You cannot customize the Acquisitions client to alter the default node that gets focus when you open the Administration tab in the Navigational pane on the left. This is hard-coded.
