
SuDocs call number index out of order.

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

Your SuDocs Browse index is ordered like this:

Y 1.1/8:99-955
Y 10.12:EI 2
Y 10.12:H 19/981
Y 10.2:P 75/3
Y [3.Ad](#) 9/8:2 D 63/3
Y 3.Ad9/8 A-7

That is, the numbers are not being filed as whole numbers.

Resolution:

The tab_filing routine being used for SuDocs should include an "expand_num" line.

It should look like this:

```
!* Gov_doc Numbers
26 F del_subfield
26 F to_lower
26 F expand_num
26 F to_blank :-
26 F pack_spaces
```

Additional Information

faq, government document, govt document
