

## 99 level supplier not added automatically

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 18.01
- 

### Description:

I have been checking several of our libraries using ILL and find that the supplier defined as level 99 is not being added automatically to potential supplier lists.

This supplier is set up as a 99 level supplier in ANYMEDIA for all our libraries that are direct borrowers.

### Resolution:

This partner is defined as type 'ITEMLESS'. We find that changing this to 'UNITLESS' resolved the problem. The partner is now being added to the rota as expected.
