

## Opac z39.50 searches not recognised

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 17.01
- 

### Description:

Opac z39.50 searches (types 31 & 32) not recognised

### Resolution:

To solve the problem, please add the following lines to pc\_tab\_exp\_field.<LNG> file from USM50 and your ADM library:

OPAC-EVENT-TYPE L Z39 Server Search Query 31

OPAC-EVENT-TYPE L Z39 Server Scan Query 32

After that please restart the ALEPH pc\_server and run ETL again.
