

## Restricting Cash transactions to a sublibrary

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 19.01
- 

### Description:

We would like to restrict the staff permissions to the sub-library level when it comes to CASH.

### Resolution:

Staff Privileges do not apply a sub-library level to cash transactions.

This should be done by setting IP-address and Type 6 in `tab_attr_sub_library`.

Type 6 will filter the defined sub-library/-ies and hide all the other sub-libraries from display.

Thus only the transactions for the allowed sub-library/-ies can be done.

---

## Additional Information

cash `tab_attr_sub_lib`
