

Internal Print truncating fields

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Description:

Problem Description:Fields are truncated when using the Cataloguing...Print...Internal print option in the Cataloguing GUI. The records print correctly using other print formats.

Actual Results:Fields are truncated at differing points when using the Cataloguing...Print...Internal print option in the Cataloguing GUI

Expected Results:Fields print in their entirety when using the Cataloguing...Print...Internal print option in the Cataloguing GUI

Resolution:

The problem can no longer be replicated in v.20.2.
