

## p\_manage\_01\_e restart

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 18.01
- 

### Description:

We were running p\_manage\_01 for fau01last night and z98 table filled up. The process was in the e step. Can you give us the steps we can take to restart the process just for the p\_manage\_01\_e ? [ <Jerry Specht > ]

### Resolution:

This problem is addressed in section 9, of the "How To Run Index Jobs" document.

Subsection "Restart";

Sub-subsection: Restart of p\_manage\_01\_e.
