

Does Util D save the pc_display_eng directory?

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

Util D for ABC50 doesn't save the pc_display_eng directory...

Resolution:

Indeed, util_d_02 does not store the pc_display_eng directory. I looked at the code, and there is no evidence that it ever did this or is supposed to.
