

## What is the hierarchy for monographic cancels?

- **Article Type:** General
  - **Product:** Voyager
  - **Product Version:** 6.5.3
- 

### Question

What is the hierarchy for monographic cancels?

### Answer

Voyager checks "Cancel After" interval in

1. line item
  2. purchase order
  3. vendor record
  4. Vendor Type in SysAdmin
- If interval blank in all, Voyager does not cancel.
  - All monographic cancelling is dependent on running Pacqjob number 1, and 'Generate Cancel' from the Problem List or the PO.
