## pc\_cir\_c0471 ("Booking Request") called when performing regular loan

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 20
- 

### Description:

We see the following series of entries in the pc\_server log when we loan an item in the Circ GUI:

DESCRIPTION: Get Global Patron/Local Patron Information

ACTION : LOANPER

PROGRAM : pc\_cir\_c0438

DESCRIPTION: Check Patron [and Item] and Retrieve Error Messages

ACTION : RECHECK

PROGRAM : pc\_cir\_c0404

DESCRIPTION: Find Item

ACTION : CIC

PROGRAM : pc\_cir\_c0461

DESCRIPTION: Get Item by Barcode

ACTION :

PROGRAM : pc\_com\_c0105

DESCRIPTION: Get/Update/Delete Booking Request <-----

ACTION : PATRON\_BK

PROGRAM : pc\_cir\_c0471

DESCRIPTION: No Description Available

ACTION :

PROGRAM : pc\_com\_c0184

DESCRIPTION: Loan Item

ACTION :

PROGRAM : pc\_cir\_c0441

DESCRIPTION: Get Global Patron/Local Patron Information

ACTION : LOANPER

PROGRAM : pc\_cir\_c0438

Why is the "Booking Request" program being invoked? This is just a regular loan \*not\* a booking.

Resolution:

Before doing a regular loan it wants to make sure that this patron does not have a booking request for the item.

(pc\_cir\_c0471 calls the get\_patron\_first\_z37 program which calls the get\_buf\_z37\_by\_time\_range\_id program which checks the z37 for such Booking values as Z37-EFFECTIVE-START-TIME.) If it finds no z37 or no such values, it exits and performs the normal c0441 loan.
