### Description:

Is there any way to get an updated documentation package for the ALEPH X-Services?  
The one at the documentation center appears to be fairly comprehensive, is there more documentation I'm not aware of?

### Resolution:

Please use `X?op=explain&file=intro` and `X?op=explain&func=<func_name>`

### Additional Information

X-Server documentation for Aleph version 18 and up can be found in the Developers Network '[Aleph X-Services](#)'
