

How to list patrons with particular patron status.

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 21
-

Desired Outcome Goal:

A list of yyy50 patrons with BOR-STATUS of "11" (in a multi-ADM set-up).

Procedure:

Use the following SQL (where xxx50 is your \$usr_library):

```
> s+ yyy50
```

```
yyy50@ALEPH21> select z303_name from XXX50.z303, z305 where substr (z305_rec_key,1,12) = z303_rec_key and  
z305_bor_status = '11' order by z303_name asc;
```
