

## Redirection after end session

- **Article Type:** General
  - **Product:** MetaLib
  - **Product Version:** 3
- 

### Description:

Redirection to the MetaLib Home page after the end session - how can this be done?

### Resolution:

In order to direct users to the MetaLib Home page after ending the session, you need to add the following segment into the file: `./m3_N/pds/conf_table/tab_service.<institute>`

```
[REDIRECT_LOGOUT]
params = Y/?func=home
[END]
```

Specify the page you wish to redirect users to by using the relevant `func=page` which you can identify by looking at the URL of the page/module you wish to redirect users to.

---

## Additional Information

PDS, logout
