

## table header for check\_doc\_line

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 20
- 

### Description:

I find that I'm unable to successfully edit check\_doc\_line using AlephADM

### Resolution:

check\_doc\_line is one of the few Aleph tables that can't be edited using AlephADM. The utility is unable to handle tables that have multiple headers (describing differing structures within the table.)
